MEMORANDUM FOR THE RECORD

SUBJECT: Sale to OMNI

At approximately 1630 on 8 January 1976, Wayne Hilmer of OMNI Aircraft called Paul Velte and after being informed that Paul was not in the office asked to talk to Clyde Carter. Basically, Wayne told Clyde that he was having problems putting together a deal based on Air America's latest proposal (\$1.5 million in cash; \$825,000 note; \$1.6 million deferred purchase of the helicopter package) and wondered if it would be possible to increase the dollar value that Paul had established for the helicopter package. Clyde said that he doubted very much whether our latest proposal could be changed but that only Paul could provide such an answer and suggested that he call him in . Wayne made no comment regarding this suggestion and the conversation was ended.
